

**D3.2 EG IT will stage one online RND Meeting per year (3 in total).** Invitation, agenda, attendance list, report of the event, presentations, evaluation report, feedback questionnaire.  
Digital. Italian language.

EG Italy coordinates the Euroguidance National Dissemination Network, involving over 80 organisations working in the field of guidance and international mobility at local level. The Network promotes cooperation between the various actors and the dissemination of information on guidance, mobility and transparency of skills and qualifications. Membership is free and allows to stay updated, to contribute to publications and to participate in events organized by Euroguidance Centre Italy.

Over the three-year period, the EG National Dissemination Network (RND) expanded significantly, reaching 100 memberships (including local points of contact and followers) nationwide and increasing participation by 65% over the previous period. To raise the RND visibility among the wider public, in the EG page on SkillON website a Google-map of RND members has been constantly updated providing links to each EG member's website and contact information. In line with the foreseen dissemination policy (SEN), during the three-year period, 3 RND meetings were held aimed at informing about recent policy developments and new initiatives/opportunities; promoting the exchange of good practices; implementing joint events/initiatives; fostering national networking.

Due to a delayed start of the 2021-2023 JIIT programming period, that did not officially start until March 2022, the national network meeting scheduled in the year 2021 was held in June 2022. Following this, the 2022 annual meeting was regularly held in December 2022 and so was the 2023 meeting. All meetings were recorded and related documentation is available at the links given below.
